

Monday.

Darling Pars Orr!

First of all many thanks for your dear letter. I really think that you should write to family Simmons, if you haven't done it yet, please do it, it's duty in my opinion. — I hope you have written already to the parents over that address you mention in your last letter. That what you made out of a scarf is lovely. As a matter of fact, somebody has shown me that on my journey to London, I have tried often, since, but I could'nt manage it. Now, with your exact directing it's easy. — I was worried about Ester, and I am glad now to hear, that you have got a letter from her. Thanks for my pullover, you have done with it the same I did with the green one, but I have to wash it in any case. — You asked me about my correspondents with my friends. Well, all of them ~~have~~ written to me, and I did'nt answer. If you ask me why, I'll soon tell you, firstly I haven't got patience, secondly I've not much of time, and because I haven't written a such a long time, even before the war started, I do not know whom I shall write first, and, it's funny, what I shall write, and so I seem to wait, till a better time is coming.

Tully planned me up yesterday I think you know
 about that, but I'm afraid I've been in bed. I
 caught a cold. I was lying in bed to-day till
 lunch, and then I got up. I feel better thank God.
 Now I'm sitting in a comfortable armchair near
 the fire place, holding that paper in my hand,
 I fancy that I need not tell you brief, you
 can see it on my bad handwriting..
 At any rate, maybe he wants to tell me
 something, because he did not say anything
 news to Guggi. So you better ask him, and
 give him my love. He shall write me a
 letter. I'll send you your things as soon
 as I have an occasion. You wonder what
 I'm doing the hole day long. Well I've got
 enough to do, Guggi is staying in
 London in business, I've got to look after
 the baby, and I am also helping a little in
 the house, there is plenty of work, you
 may be sure. Judith is very sweet indeed.
 and clever too. That poor kid has also catch
 a cold. You were asking whether I've got a knitting,
 yes I'm knitting on little knickers for baby. Perhaps
 I'll turn up soon in London for sure day. I've
 got a permission to go there when ever I want.
 I could not have done that before. I only had

the permission to go no further than 5 miles.
I'll see. I'm not quite sure when that will
be. At dipense, you see. I have not got to
do important things in London after all.

I'm looking forward to see you all, especially
the kiddies. How are they going on? I hope
everything is all right. Uncle told me you
look O.K. I said, glad to hear that.

Please do write me more about yourself.
You write a hole letter both gurnischt. Write
also English, even if you have such a lot
of mistakes as I do, does not matter, I
write if it would be german, that what's
coming in my mind just now I write it
down. It does not take more time than
german or yiddish, because I d'not do what
I really should, look in a dictionary, or
to ask wheter that what I write is right or
not. You may do it just the same. (Du kennst
ja in ein Wörterbuch schauen).

I just want to finish that letter, when
uncle come in, whis a letter holding in his
hand, a letter from mother. I think you
can just imagine my surprise. I can't tell
you wheter I'm glad or not. Any way I send
you that letter. But please be sure and send it.

back to me. I think I wrote you that I have
written to the parents seven weeks ago, to
Kreisberg to Holland. That's the answer. Now
I am going to write to Mrs Schapiro to
Belgien and again to Kreisberg.

Do try to write where to ever you can.
I can't think of anything else at the moment
I could write to you. Believe me I got headache
from that letter, and finally, I wrote with
uncle together to Jakob Spier. and not to
us, and there is no word written from
Grandfather or aunt. The less I think about
that the better. There is no help. I may hope
the same money soon, that ^{we} all of us
will meet again soon.

Please answer soon
